

Cottage Maple Sterling

KITCHEN OF THE MONTH

April 2020 Winner

Thomasville Classic
CABINETRY

CONGRATULATIONS, KIMBERLY HOPKINS!

Home Depot Store: #4601

Location: Fairfax, VA

With many areas across the US facing housing shortages, designers are challenged to make the most of small spaces. Kimberly has done just that with her kitchen and bath designs for a nine-unit condo in an upscale Washington, D.C. neighborhood. With modern lines, an airy color palette, and plenty of smart storage, she proves that a small space can still boast big style and functionality.

WINNING DESIGN HIGHLIGHTS

Using appliance panels to hide appliances helps create a seamless integrated look that cuts down on visual clutter.

Stacked wall cabinets accentuate the high ceilings and create a sense of open space.

Including storage "Must Haves" like Roll Trays and a Microwave Cabinet help save space and add more functionality.

The bathrooms are tied in beautifully with the kitchen by using the same door style in a crisp, white finish.
