Todd Haley & Associates

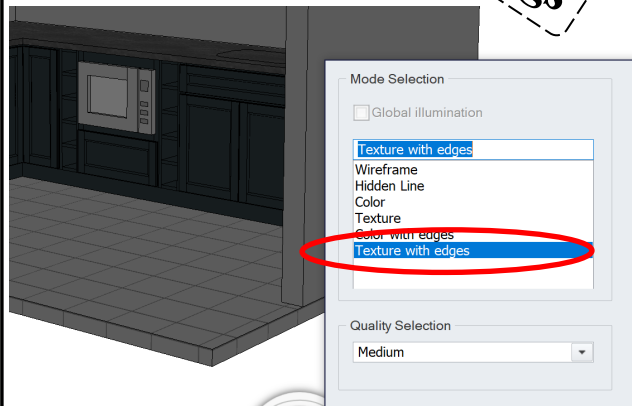

Texture/Display Settings

Light Effects

Zoom/Orbit/Pan

Clipping

View Mode/Quality

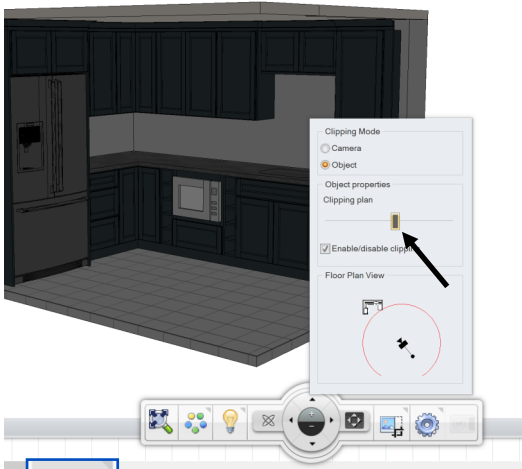

Step 1

View Mode/Quality

Select *Texture with Edges* to give your cabinet details the most definition

Thomasville Experience: Enhancing Your Renderings

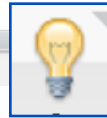

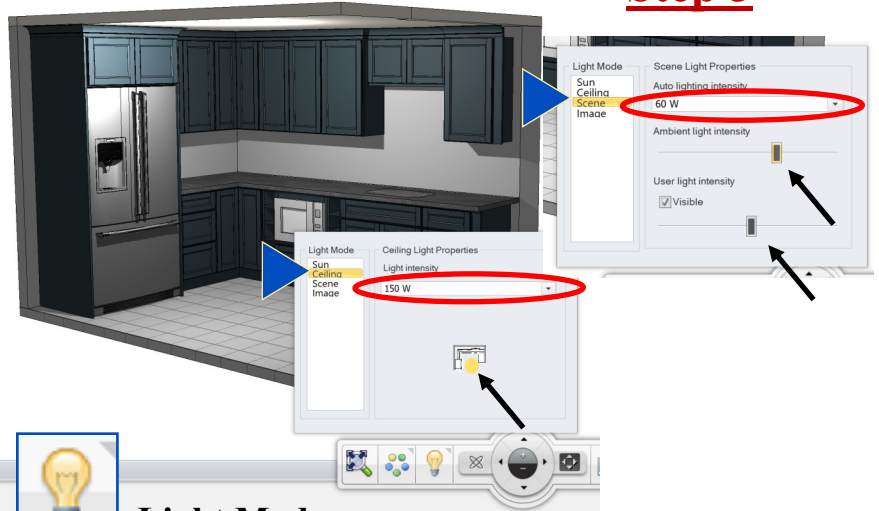

Step 2

Clipping Mode

Adjust your toggle bar to trim out walls or items that are in the way of your view

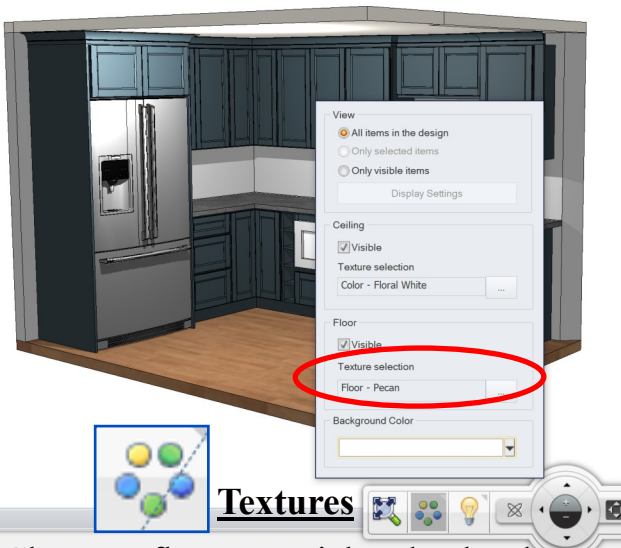

Step 3

Light Mode

Turn on your **Ceiling Light** (use higher intensity for darker cabinets)
Move the **Yellow Ceiling Light Dot** into your kitchen
Under **Scene**, select **60W** in the **Auto Light Intensity** dropdown, and adjust your **Ambient Light** and **User Light Intensity** slightly higher

Step 4

Textures

Choose a floor material and color that accents your cabinets, or matches what the customer will be using in the room

Step 5

Zoom, Pan, and Orbit

Adjust your zoom, camera angle and position – up, down, left or right – to get the best view
