Adding Authentic Ends to Cabinets in 2020.

With MasterBrand, we make it easy to add applied doors or Authentic Ends (AUTH_) to your cabinets.

Instead of going into Attributes to add the Authentic end like shown above, try this simple step.

In your Drag & Drop box, type AUTH.

Your categories list will provide you with options as shown to the left.

AUTHL-B is for a Left Base panel

AUTHL-W is for a Left Wall panel

AUTHL-T is for a Left Tall panel

Left click on the desired panel, hold down the mouse button and drag and drop on the cabinet where you want the panel applied.

Our Authentic ends come installed from the factory, saving your customer money on the install.
