www.THAHD.comAlways **DWYSBO**, Design With Your Spec Book Open!***Displaying Flooring and Ceilings in your renderings*****Displaying flooring and ceilings in your rendering often helps the client see the full scope of the project while giving them a better understanding of how the material colors and textures will all complement one another.****In the example above, the flooring is set to a generic white ceramic tile. We are only going to talk about the flooring in this training. The same steps are used to display and change the ceiling. Using the tool bar at the bottom of the rendering you can quickly change from tile to wood, brick or any other available materials pre-loaded in the program.*****See Next Page to continue:***

Clicking the Textures Icon will reveal the Ceiling and Floor choices. You can make visible or not and select the color and materials by clicking the box with the dots.

Please be the professional and manage homeowner expectations.
Availability of materials continues to be unpredictable. When disruptions occur, they impact shipping schedules and trigger backorders. Advise homeowners **NOT** to tear out kitchens and baths until cabinets are delivered and inspected.
