Personalizing Room Colors and Textures.

To set your personal preferences for Room Colors and Textures for all designs prior to starting walls, Click on File/ Preferences/ Room Textures. Click the box to the right of the category you wish to change. Here we are showing how to set Wall Colors.

Selecting the box far right of the Inside Wall selected color. A new dialog box will open allowing you to select your room Wall Color.

You can do the same with Ceiling color and Floor Material, type and color. These selections will be saved until the next Home Depot 2020 update.

~ That Easy!
